ADDENDUM - 2017 Popular Annual Financial Report

Our PAFR is prepared using publicly available and audited financial statements and publicly available official statistics. In using other's official financial reports and statistics, we are reliant on the integrity and reliability of the information reported by others.

In preparing our report in June 2018, we relied on the Cumberland County Court Adult Probation office's most recently self-reported, and published, average active adult probation officer caseload figure of 34, in producing the graph on page 14 of our PAFR.

Subsequent to publishing our 2017 Popular Annual Financial Report (PAFR) in June, 2018, the Cumberland County Court Adult Probation office notified us that they would be revising significantly upward, when their most recent statistics would be published in September 2018, their average active adult probation officer caseload statistic which they informed us that they had consistently underreported in recent years.

In September 2018, a Cumberland County Court Adult Probation statistic was re-measured and revised significantly upward to reflect an average active adult probation officer caseload of 84.

In order to be good stewards of the County's tax money, the originally published editions will not be revised; though the affected graph is revised and reprinted below.
