### Cumberland County Announces Household Hazardous Waste Disposal Events

*County Residents, Businesses Can Choose One of Four Dates, Pre-registration Required, 30 Cent Per Pound Fee*

**Carlisle, PA** – Cumberland County to host four Household Hazardous Waste Disposal Program events in 2021, available to county residents and small businesses. All participants must pre-register [online](#) for a specific time and date. Participants will drop off household hazardous waste at the county recycling center, located at 1001 Claremont Road, Carlisle.

#### Program dates include:

- Thursday, April 15, from 11 a.m. to 5 p.m.
- Saturday, June 5, from 9 a.m. to 3 p.m.
- Saturday, August 21, from 9 a.m. to 3 p.m.
- Thursday, October 28, from 11 a.m. to 5 p.m.

All participants must pre-register for a specific date and time, which will reduce congestion at the recycling center and improve traffic flow. Appointments will be made in 15-minute intervals, and will be available on a first-come, first-served basis. A limit of 15 customers will be scheduled for each appointment time, with a maximum of 360 customers per disposal event.

All acceptable waste will be weighed as is, and customers will be charged 30 cents per pound for disposal. Cash is preferred; however, customers will incur a convenience fee for the use of credit and debit cards.

The program costs the county about \$1 per pound to operate. State funds and private sponsorships offset some of that cost, enabling the county to keep the fee lower for participants.

#### Acceptable household hazardous waste includes:

- Adhesives, glues, epoxies, caulking and sealants
- Antifreeze and car care products

- Automotive batteries
- Driveway sealers
- Drain cleaners, degreasers and oven cleaners
- Fire extinguishers
- Fluorescent light tubes and bulbs
- Gasoline, diesel fuel and kerosene
- Hydrochloric, sulfuric and other acids
- Latex (water-based) paint and paint-related products
- Lubricating sprays
- Mercury and mercury-containing devices
- Motor oil
- Oil-based paints, stains, varnishes and sealers
- Oil-based paint cleaners, thinners and removers
- Pesticides, insecticides, herbicides and fertilizers
- Pool chemicals
- Propane cylinders (up to 20 pounds)

The maximum accepted container size is five gallons.

The program is open only to Cumberland County residents and small businesses. As part of their preregistration, businesses also must complete a [Small Business Registration Form](#). Businesses are limited to 2,200 pounds of waste.

Last year, the county collected nearly 58 tons of household hazardous waste from almost 1,000 residents and businesses. Since its inception in 1998, the program has safely disposed of more than 1,020 tons of waste.

Appointments can be made [online](#) or by calling the county's recycling and waste department at 717.240.6489 between 8 a.m. and 4:30 p.m. Monday through Friday.

This year's program is sponsored by the Pennsylvania Departments of Environmental Protection and Agriculture. More information is available on the [recycling and waste department website](#) or by calling 717.240.6489.

###

*Cumberland County is the fastest growing county in the Commonwealth and offers the perfect mix of small town, suburban and rural living. Established in 1750, Cumberland County consistently maintains one of the lowest tax and unemployment rates in the state, while providing exceptional services for its more than 250,000 residents. More information on Cumberland County can be found at [www.ccpa.net](http://www.ccpa.net).*
