## PLAN SUBMISSIONS

The Municipalities Planning Code (MPC) requires municipalities to forward all subdivision and land development plans to the Cumberland County Planning Commission (CCPC) for review and comment. The CCPC uses the residential, commercial and industrial proposals shown on final plan submissions to assess future growth potential in the County. Summary conclusions from 2020 plan submissions are included below.

- Multi-family units and townhouse units comprised 68% or 1,254 of the 1,831 residential units proposed in the county in 2020. Single family dwelling units accounted for only 31% of the total number of proposed units in 2020. In 2019 the county saw similar growth with over 60% of the residential proposals coming from multi-family units and townhouse units.
- 728 multi family units were proposed in East Pennsboro Township and Hampden Township. This figure represents 39.8% of the total proposed residential dwelling units and 78% of the multi family units proposed in Cumberland County in 2020. The large number of multi family units continues a trend from 2019 when a total of 804 multi-family units were proposed.
- Over 70% of the proposed residential units were located in just 5 municipalities.
- The units proposed in Mechanicsburg Borough came from a single large, mixed use development that includes a mix of single family and townhouse units.
- Commercial development proposals (55) outpaced industrial development proposals (5). The most common commercial/industrial development proposals in 2020 included uses such as medical, restaurants, schools and daycares, warehouses, churches and retail sales.

## BUILDING PERMITS

The CCPC conducts an annual building permit survey with the 33 municipalities in the county. The CCPC requests information on the number, type and value of building permits issued by each municipality in that year. The information collected from the building permit survey provides an indication of expected near term development. Summary conclusions are included below.

- The Cumberland County Comprehensive Plan estimates that approximately 630 new dwelling units are needed each year from 2015 through 2040 to keep up with our projected population growth. 875 residential building permits were issued in 2020, indicating strong market demand that keeps pace with estimated housing needs.
- Single family detached units comprised 62% of the 875 building permits that were issued for new residential units in 2020. 38% of the building permits issued consist of multi-family units, semi-detached units, and townhouses.
- A total of 35 permits were issued for commercial/industrial building permits.
- Carlisle Borough issued 9 commercial/industrial permits in 2020. This was reduced significantly from the 29 commercial/industrial permits issued in 2019. Carlisle Borough still accounted for 25% of the total number of permits issued in the County and this is the tenth year the Borough has had the most commercial/industrial permits.

# RESIDENTIAL DEVELOPMENT TRENDS 2010-2020

## Comparison of Final Plan Submissions and Building Permits

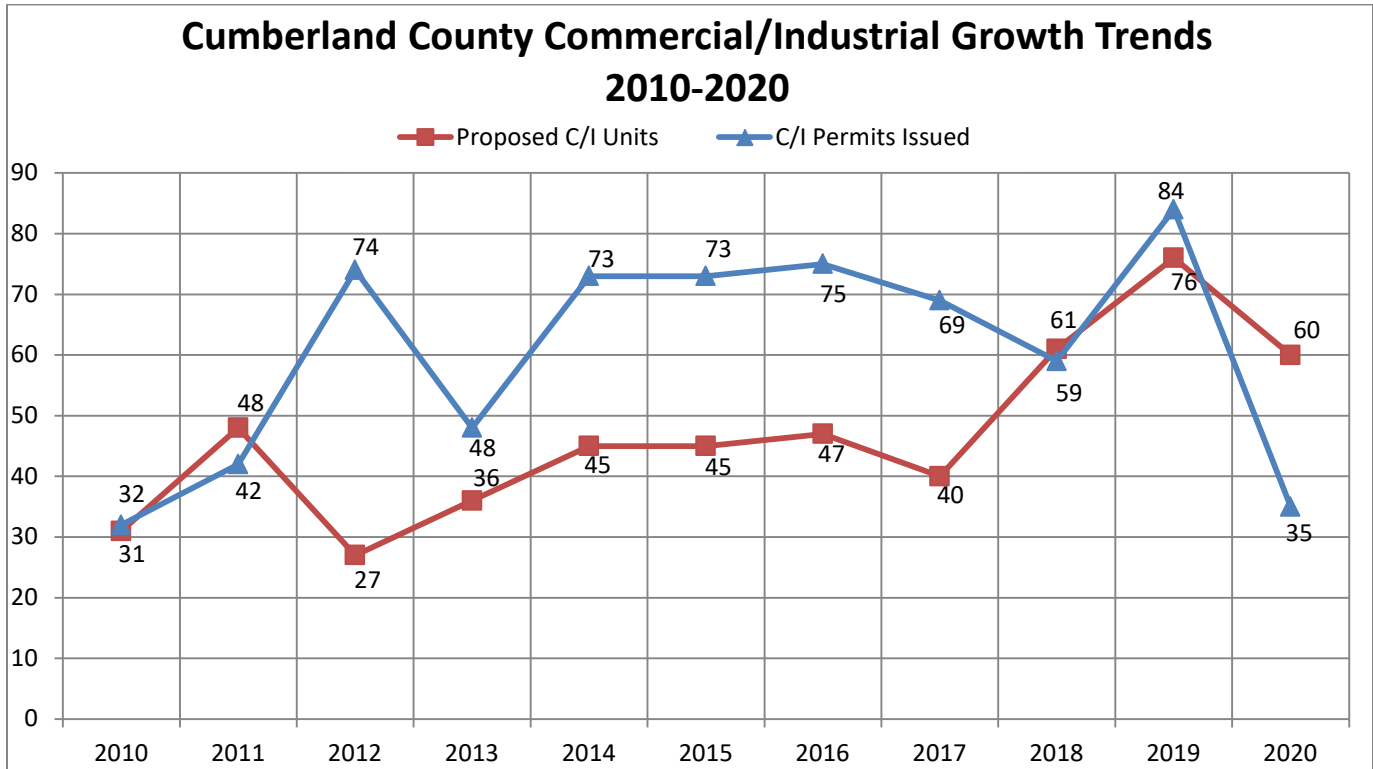

Municipal Residential Building Permit Leaders 2010-2020		Municipal Residential Proposals Leaders 2010-2020	
Silver Spring Township	2,394	Upper Allen Township	2,569
Hampden Township	1,575	Hampden Township	2,403
Upper Allen Township	1,561	Silver Spring Township	1,833
Lower Allen Township	1,263	Lower Allen Township	1,484
South Middleton Township	849	South Middleton Township	748
Total (Countywide)	11,141	Total (Countywide)	12,535

- Despite the COVID-19 pandemic, residential proposals increased by 15.7%, signaling strong consumer demand and confidence in the future housing market. The 1,831 proposed units was the second highest number of proposals in the last 11 years. Building permits on the other hand experienced a 12% decrease from 2019, a result attributable to the financial insecurity, job instability, and increase in material costs caused by the pandemic. The 875 residential building permits issued in 2020 was the second lowest number of such permits issued in the last 11 years.
- The number of proposed residential units more than doubled the number of building permits in 2020. These proposed units will eventually result in future building permits. Based upon the proposed units discussed above, multi-family and townhouse construction will be more than double the amount of single family permits.
- The municipalities leading in residential building permits issued from 2010-2020 are the same municipalities that lead the County in numeric population growth since 2010.
- Five municipalities have accounted for over 70% of the county's total residential building permits and proposals residential growth in the past 11 years.

# COMMERCIAL/INDUSTRIAL DEVELOPMENT TRENDS 2010-2020

## Comparison of Final Plan Submissions and Building Permits

Municipal Commercial/Industrial Building Permit Leaders 2010-2020		Municipal Commercial/Industrial Proposals Leaders 2010-2020	
Carlisle Borough	223	Hampden Township	83
Silver Spring Township	98	Silver Spring Township	66
South Middleton Township	65	South Middleton Township	54
Hampden Township	52	Lower Allen Township	53
Lower Allen Township	28	Carlisle Borough	39
Total (Countywide)	673	Total (Countywide)	504

- Commercial/industrial permits reached a 10-year high in 2019 but fell by 58% in 2020, nearly matching the 11-year low. Proposed commercial/industrial units also fell by 21%. Financial insecurity coupled with pandemic-required business closures deterred business openings in 2020.
- Commercial/industrial proposals were down 21% from the 11-year high experienced in 2019. Despite the decline from 2019, the 60 commercial/industrial proposals from 2020 matched 2018 numbers and exceeded the 11-year average of 46.
- The same 5 municipalities account for 69% of the entire commercial/industrial growth in the county in the last 11 years.
